Your capable partner

New Ford Ranger

Tough and capable

The 2019 New Ranger is here. It's tough, capable and ready to work. With a striking new design, formidable range of engines, and smarter state-of-the-art technology, Europe's best-selling pick-up* just got even better.

*Based on latest available data from the end of January 2019 for the 20 European main markets where Ford is represented through National Sales Companies. The Euro 20 markets are: Austria, Belgium, Britain, Czech Republic, Denmark, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Netherlands, Norway, Poland, Portugal, Spain, Romania, Sweden and Switzerland.

Model shown is a Double Cab Wildtrak in Sabre Orange fashion metallic body colour (option).

360°

Designed around you

Sophistication and craftsmanship come together beautifully in the new Ford Ranger. No matter your destination or travelling companions, its upgraded interior will reward you with SUV levels of luxury and style.

In Wildtrak (shown), the sculpted, supportive seats are partially trimmed in leather and feature an embossed Wildtrak logo, while the 8-way power-adjustable driver's seat helps to keep you sitting comfortably.

New Ranger's thoughtful design offers a wealth of advanced features and technologies, and is available with the new FordPass Connect on-board modem* and Ford SYNC 3 with 8" colour touchscreen and navigation* to help guide you through even the toughest working day.

*Availability varies according to series, may be optional at additional cost.

Model shown is a Double Cab Wildtrak in Mettle/Journey Grain Leather in Ebony (standard).

Ready for the challenge

If you want a job done right, let the new Ford Ranger do it. Offering an outstanding combination of four-wheel drive capability, impressive power and traction, partnered with up to 3,500 kg maximum towing capacity*, the new Ranger is so capable you'll have to remind yourself that you are actually pulling a fully laden trailer. The new model retains its exceptional wading capability and is designed to drive through water up to 800 mm deep.

Note Always consult Owner's Manual before off-road driving. Follow all laws and drive on designated off-road trails and recreation areas. Care is required when driving through water and speed levels must be reduced accordingly. When a trailer is attached, it is important that it has adequate mass to ensure road traction on all wheels.

*Please refer to weights and loads page for more information on towing capacity and payloads.

Model shown is a Regular Cab XL in Diffused Silver metallic body colour (option).

Raptor, the ultimate Ranger

The sensational new Ford Ranger Raptor is the toughest and highest performing Ranger ever. Developed by Ford Performance for the true off-road enthusiast, it combines rugged performance with confident, surefooted capability.

Ranger Raptor is powered by a new 2.0L Ford EcoBlue BI-TURBO diesel engine. Developing 213 PS (157 kW) and a mighty 500 Nm of torque, it drives Raptor's four-wheel drive system via a new 10-speed automatic transmission to get you in the right gear at the right time.

Built to withstand high-impact off-road events, its unique, super-strong reinforced chassis frame uses high-strength, low-alloy steel to endure the rigours delivered by the most challenging environment.

Race-bred off-road FOX Pro suspension is designed to tackle fearsome terrain with ease, smoothing out bumps and ruts while leaving you in complete control and comfort.

Always consult the Raptor supplement to the Owner's manual before off-road driving, know your terrain, and use appropriate safety gear.

Model shown is a Double Cab Ranger Raptor in Ford Performance Blue fashion metallic body colour (option).

Take control

The new Ranger Raptor interior offers a powerful fusion of sportiness and top-level comfort, putting you firmly in control.

The bolstered front sports seats are specially designed for off-road support, with technical-suede materials for enhanced grip. Exclusive blue stitching and leather accents feature throughout. Even the perforated leather steering wheel is specially designed with an on-centre marker and Raptor logo, and is equipped with racing-style magnesium paddle shifters for manual gear selection override.

Ranger Raptor also features a new Terrain Management System with six selectable drive modes that allow you to optimise its performance on a wide range of terrain and driving conditions.

From now on, you will view every road and every drive from an entirely new perspective.

Model shown is a Ranger Raptor with 10-speed automatic transmission (standard).

Impressive towing capability

When it comes to towing heavy loads, new Ranger really comes into its own. With a gross payload of over 1 tonne, and up to 3,500 kg towing capability*, you can take on the big tasks and tow bulky loads◊. Further confidence comes from Ranger's Trailer Sway Control(Ø)(1) system that is designed to detect 'snaking' or trailer sway and reduce your vehicle's speed to help make towing more controlled. The system slows the vehicle down by applying the brakes and reducing the engine's torque if needed. (Standard, but activated with optional Ford trailer tow attachment)

*Raptor payload 620 kg, towing capability 2,500 kg.
◊Payload and towing figures are subject to vehicle load and options fitted. Please see weights and loads section for more information
(Ø)Uses sensors.
(1)Safety feature.

Model shown is a Double Cab XLT in Blue Lightning metallic body colour (option) with Chrome Sports Bar (option).

Thinking ahead

New Ranger's smart technologies are designed to make your drive easier. Pre-Collision Assist[02] with Pedestrian Detection is designed to monitor your proximity to other vehicles and pedestrians – even in the dark – and can alert you to a potential collision. If you don't respond to the system's warning signals, Active Braking[02] pre-charges the braking system for enhanced effectiveness when you brake. If the system determines a collision may occur, Active Braking is designed to automatically apply the brakes to help reduce the impact of frontal collisions.

[01]Uses sensors.
[02]Driver assistance feature.

Model shown is a Double Cab Limited in Copper Red metallic body colour (option) with Load box bedliner (option).

Wherever the road takes you

Ford Ranger has a long-established reputation as one of the most capable pick-ups. With its four-wheel drive system with Roll Stability Control and Traction Control – in addition to an electronic locking rear differential* – the versatile and sure-footed new Ranger is perfect for a tough week at work, followed by an adventurous weekend off-road†.

10-speed automatic transmission

A new 10-speed automatic transmission ensures you are always in the right gear. (Standard on Raptor and available as an option on Limited and Wildtrak with either the 170 PS or the 213 PS Ford EcoBlue engine)

Electronic shift-on-the-fly

Change from two-wheel drive to four-wheel drive – and back again – at the flick of a switch when you're on the move.

*Locking rear differential is standard on Wildtrak and Raptor, optional on XL, XLT and Limited series.

†Always consult the Owner's Manual before off-road driving. Follow all laws and drive on designate off-road trails and recreation areas.

Model shown is a Double Cab Wildtrak in Moondust Silver metallic body colour (option) with Load box bedliner (option).

Advanced features to ease your working day

New Ranger is available with an even greater range of driver assistance features to help make your day easier. Whether you are working hard or playing hard, you can depend on New Ranger to extend a helping hand.

Rear-view camera with Trailer Hitch Assist

Select reverse and the view to the rear of your Ranger vehicle is displayed in the Multi-Functional Display screen. Marker lines overlaid on the camera image indicate where your vehicle is heading. (Standard on Limited and above)

Hill Start Assist[02]

Designed to temporarily prevent you from rolling down a slope when you move your foot from the brake pedal to the accelerator pedal. It works in forward and reverse gears, and can be used when towing and pulling loads. (Standard)

[01]Uses sensors.
[02]Driver assistance feature.

Model shown is a Double Cab XLT in Moondust Silver metallic body colour (option) with Chrome sports bar (option).

Forward-thinking technology

The new Ford Ranger introduces a wider range of advanced features than any Ford pick-up before. Innovative technologies are supported by a forward-facing camera and sensors that can monitor the area around your vehicle and scan the road ahead, to help you and those around you. When you come to park your new Ranger, Active Park Assist can identify a suitable parking space, and automatically steer your vehicle in or out of a parallel space while you control the pedals and gears. (Option on Limited and Wildtrak)

Electronic Stability Control (ESC)[0][1]

Senses when you are deviating from your chosen line and aims to keep you on track by automatically regulating braking and engine output. Traction Control[0][1] is designed to reduce excessive wheelspin and improves grip by constantly monitoring and adjusting the torque delivered to individual wheels. (Standard)

Pedestrian Detection[0][2]

Pedestrian Detection can monitor your proximity to other vehicles and pedestrians – even in the dark - and is designed to alert you to a potential collision. (Standard)

[0]Uses sensors.
[1]Safety feature.
[2]Driver assistance feature.

Model shown is a Double Cab Wildtrak in Sabre Orange metallic body colour (option) with Mountain top lockable roll cover (option).

Meet your phone's new best friend

Ford SYNC 3

Ford SYNC 3 integrates seamlessly with your compatible smartphone, letting you control everything from phone calls and text messaging to music and satellite navigation - all via the 8" touchscreen or through remarkably simple voice commands. Map updates help to keep you on track and on time, and are complimentary for a limited period following vehicle registration.

SYNC 3 features

- Manage your phone, music, apps and navigation with simple voice commands
- Hear your text messages read aloud for you
- Emergency Assistance[1] helps occupants place an emergency call to provide emergency services with the vehicle location in their respective language
- Control SYNC-compatible apps with AppLink, while Apple CarPlay and Android Auto let you navigate your smartphone through the SYNC 3 home screen, as if it were your handset
- Colour touchscreen supports multi-touch 'swipe' and 'pinch-to-zoom' gestures, and lets you arrange application icons and background displays just as you would on your tablet or smartphone
- Access additional features via your smartphone with the FordPass App.
- Select points of interest along your route. FordPass will send these locations to your SYNC 3 Navigation when you connect through AppLink
- Search for refuelling points by brand or fuel grade, and compare pricing
- Search available parking spaces, check costs, opening hours and ratings

Please note: Full SYNC 3 smartphone integration only available with iPhone 5/Android 5.0 (Lollipop) or higher. Some SYNC 3 functions require a data connection, so mobile data charges will apply.
[1]Ford Emergency Assistance is an innovative SYNC feature that uses a Bluetooth®-paired and connected mobile phone to help vehicle occupants initiate a call to the local Communications Centre, following a vehicle crash event involving an airbag deployment or fuel pump shut off. The feature operates in more than 40 European countries and regions.

Effortless connectivity

For the first time ever, you and your Ford can stay seamlessly connected wherever you are. That's because the FordPass Connect modem and the FordPass App, together unlock a range of features designed to make every journey easier.

FordPass Connect

FordPass Connect* can help save you both time and hassle, as well as give you peace of mind.

- Live Traffic** delivers regular traffic information directly to your SYNC 3 Navigation system. The technology then adjusts your recommended route based on the traffic conditions, helping you to arrive more relaxed and on time
- On-board Wi-Fi*** - receive up to 4G Wi-Fi for a maximum of ten devices so you and your passengers can enjoy the same connectivity on the move as you would at home
- All other FordPass Connect features are complimentary for 2 years following registration, thereafter a subscription is required.

FordPass

FordPass App when paired with your smartphone it makes FordPass Connect even more powerful, allowing you to access a host of features.

- Use your phone to double-check your vehicle is locked, or allow someone to access your vehicle when you're elsewhere
- Monitor your fuel level, mileage and tyre pressures, all via your phone
- Find your way back to your parked vehicle on a map
- Receive over 150 Vehicle Health Alerts directly to your smartphone

*FordPass Connect is a standard feature on Limited, Wildtrak and Ranger Raptor, and an optional extra on XLT. The on-board modem will be connected at the time of vehicle delivery. You may choose to opt in/out of certain data sharing.
**Live Traffic access is complimentary for the first 2 years following the purchase of a new Ford featuring SYNC 3 with navigation, thereafter a license fee is payable.
***Wi-Fi hotspot (up to 4G LTE) includes complimentary wireless data trial that begins when customers activate the trial with Vodafone and expires at the end of 3 months or when 3GB of data is used, whichever comes first. Afterwards data bundles can be purchased from Vodafone, refer to their website for details of their data packages. To take advantage of the built-in Wi-Fi hotspot capability, a 2019 Ford vehicle must come with the appropriate hardware, and a data plan is required. Data coverage and service is not available everywhere and terms of your data plan, including applicable message and data rates, may apply.

Remarkable Technologies

Adaptive Cruise Control

Set your desired speed and Adaptive Cruise Control can maintain a pre-set distance from the vehicle in front. If the sensors detect traffic slowing ahead, your vehicle is designed to automatically slow down. When traffic ahead is cleared, your vehicle will return back to your pre-set cruising speed. (Available on Limited and Wildtrak)

Ford Power starter button

The Ford KeyFree System allows you to lock and unlock the doors and tailgate, and start the engine without having to get the keys out of your pocket or bag. The passive sensor inside the car can detect you approaching from a 1.2-metre radius. (Standard on Limited, Wildtrak and Raptor)

Traffic Sign Recognition

Designed to automatically read standard format road-speed signs and display the last posted speed limit in the driver's instrument cluster. (Standard)

Parking distance sensors

Front and rear parking distance sensors are designed to assist you when parking with an audible warning. Activated at speeds below 5 mph, sensors at the front and rear of the vehicle detect obstacles and provide an audible warning when the vehicle nears an obstruction. (Standard on Limited and Wildtrak)

Active Park Assist

Helps you park into parallel parking spaces. Once activated, it automatically steers you in while you operate the pedals. And it can even steer you out of a parallel parking space. (Option on Limited and Wildtrak)

Lane-Keeping System

Lane-Keeping System (Lane-Keeping Alert and Lane-Keeping Aid) uses a forward-looking camera to detect if you're unintentionally drifting out of lane. Lane-Keeping Alert then warns you by vibrating the steering wheel and displaying a visual warning. If you're slow to react or don't respond, Lane-Keeping Aid can provide steering torque assistance to help guide you back into your lane. (Standard)

Power converter

Clever additional touches also provide useful support to your business, such as a 230-volt power socket - invaluable when you need to charge a media device or work tool on the road.

Dual-zone Electronic Automatic Temperature Control (DEATC) air conditioning

Ranger's DEATC air conditioning system can be adjusted separately for the driver and front passenger, with up to 4ºC variation from side to side. (Standard on Limited, Wildtrak and Raptor, option on XLT)

Model overview

Choose the right Ranger for you.

Available in a range of uniquely individual series and bodystyles, whatever your preference there is a new Ford Ranger that's right for you.

XL

XLT

Tough and stylish new Ranger XL and XLT series combine a confident design with rugged, hard-working capability.

Personalise

Mountain Top Industries® roller shutter

Aluminium roller shutter, featuring a dual action locking mechanism that secures the load area, helping to protect your tools, equipment or valuables. Excludes Regular Cab. (Option or Accessory)

Cross bars, for roller shutter

Aerodynamically-shaped aluminium profile, for all attachments, such as bike carriers and ski racks, etc. Only in conjunction with roller shutter. Excludes Regular Cab. (Accessory)

Thule®+ roof base carrier

Roof carrier is the base for various roof transportation attachments. Excludes Regular Cab, Wildtrak and Raptor. (Accessory)

Tonneau cover

A robust awning type tonneau cover mounted on aluminum rail frame. Helps to protect tools and equipment held in the cargo area from rain and dust. Offers multiple fixing points for load securing and attachment of accessories. Excludes Regular Cab. (Option or Accessory)

ClimAir®+ wind deflectors

Offers a more comfortable drive with the front windows open, even during light rain. Excludes Regular Cab and Super Cab. (Accessory)

Rubber floor mats

The rubberised all-weather floor mats with the Ranger nameplate are tailor-made and help protect against dirt and damp. The driver's mat is securely fixed to the vehicle's floor to help prevent it from slipping. (Option or Accessory)

Undershields

Tough, rust resistant aluminum undershields designed to help protect against accidental damage during heavy-duty use. Easily removed for oil changes and routine servicing. Shields available for engine and transmission and fuel tank. Excludes Raptor. (Option or Accessory)

Brink®+ tow bar

For extra transport capability, the fixed tow bar can tow up to 3,500 kg, depending on engine. Shown with tow bar wiring kit. Excludes Raptor. (Accessory)

Mountain Top Industries® soft tonneau cover

Helps protect equipment and valuables from rain and dust. Easy opening and closing with a steel tonneau bow to assist water run-off. (Option or Accessory)

Hard tonneau cover system

This easy to install lockable hard cover system helps provide additional load space security for any tools you need to carry. Excludes Raptor. (Option and accessory)

Hard tops

Tough and lockable, the hard top covers help to provide additional load space security and are finished in body colour. Available in a variety of designs with or without side windows. For Double Cab models only. (Option or Accessory)*

For more information on accessories please visit www.ford.co.uk/accessories
For a range of Ford-branded merchandise, from clothing to lifestyle products, visit www.fordlifestylecollection.com

*Available on vehicles built from November 2019.
Fitment of accessories may have an impact on your vehicle's fuel consumption.
+Item covered by third party supplier's warranty, please see back cover for details.

Our business is to keep your business moving.

FORD **BUSINESS SERVICE**

Efficiency, accuracy and convenience are at the heart of the Ford Transit24 commercial vehicle service promise. Therefore, whether it is servicing, maintenance or repair you need, be sure to come and see us.

- Available from all Transit Centres and Transit Service dealers
- While-you-wait servicing by prior appointment
- Late night servicing available at least once per week
- Priority treatment for urgent repairs
- Vehicle off the road repairs (VOR)*
- Collection and delivery**
- Testing and MOTs
- Transparent pricing
- Genuine Ford parts quality
- Ford-trained technicians
- Interim checks for optimum vehicle performance
- Service Activated Roadside Assistance†
- Ford Protect packages to suit you
- One Call to access all the Ford services you need

For more information and to find your nearest participating Ford Commercial Vehicle Dealer, visit the aftersales support section at **www.ford.co.uk/transit24**

Commercial Vehicle Finance

When it comes to financing your Ford Commercial Vehicle, our size and expertise means we're well placed to provide you with a wide range of finance products.

Ford Credit◇: Provides a range of finance plans for Commercial Vehicle customers interested in owning their vehicle.

Ford Lease◇: Specialises in contract hire and leasing and provides an alternative range of finance plans which can be tailored to suit your business.

FORD **PROTECT**
Commercial Extended Warranty

Extend your warranty up to 5 years (from date of registration), with Ford Protect available at participating Ford Dealers.

Extend your standard 3-year warranty and enjoy worry-free motoring for many years to come. Ford Protect provides a range of key benefits including:

- Extended duration and mileage
- Cover against unexpected repair costs
- Protection on trips abroad
- With a Ford Protect Plan, the price of parts and labour are guaranteed for the length of your plan
- Helps prolong the lifespan of your Ford vehicle

Helps protect your vehicle resale value

Ford Protect terms and conditions apply for further information please call 03702 416 726.

*Repairs will start on the same working day (as long as you bring your vehicle in before 3pm), or at least within 24 hours of its arrival. If we need to order parts, we'll begin work the day they're delivered. 'Vehicle off road' repairs should be completed within 24-hours.

**Your Transit Centre can arrange to collect your vehicle and deliver it back to you after service or repairs, so you can get on with running your business. By arrangement and limited to a specific mileage radius of the dealer. Contact your local dealer to discuss your requirements.

†Available at participating Dealers only. Roadside Assistance is activated automatically at every routine service with coverage extended valid from the date of service for 12 months, or until the next service is due, whichever comes first. See Ford.co.uk/roadsideassistance for more information.

500 Nm

157 kW (213 PS)

From 201 g/km*

Powerful

2.0L Ford EcoBlue 157 kW (213 PS) BI-TURBO

The new Ford EcoBlue 157 kW (213 PS) diesel engine develops 500 Nm of torque. This makes it the ideal choice for carrying heavy loads and towing, while delivering strong fuel efficiency, up to 36.6 mpg (7.7 l/100km) combined.

340/420 Nm

96 kW (130 PS) /125 kW (170 PS)

From 178 g/km*

Efficient

2.0L Ford EcoBlue 96 kW (130 PS)/125 kW (170 PS)

New Ranger's next-generation Ford EcoBlue diesel engines combine outstanding fuel efficiency with excellent driveability and refinement. Its state-of-the-art design helps to keep running costs down without compromising on payload or performance.

Fuel

From 1 September 2017, certain new vehicles will be type-approved using Worldwide Harmonised Light Vehicle Test Procedure (WLTP) according to (EU) 2017/1151, as last amended, which is a new, more realistic test procedure for measuring fuel consumption and CO_2 emissions. From 1 September 2018 the WLTP will fully replace the New European Drive Cycle (NEDC), which is the current test procedure. During NEDC phase -out, WLTP fuel consumption and CO_2 emissions are being correlated back to NEDC. There will be some variance to the previous fuel economy and emissions as some elements of the tests have altered, i.e. same car might have different reported fuel consumption and CO_2 emissions.
To learn more about the changes, please visit www.ford.co.uk/owner/resources-and-support/fuel-economy

*Available on Raptor only. Note for all Ford EcoBlue engines (except 213 PS manual variant and Raptor series variants): Values shown illustrate vehicles fitted with Auto Start-Stop. Auto Start-Stop system reduces CO_2-emissions and fuel consumption by 6 g/km and between 0.2–0.3 L/100km respectively. [10]The illustrated axle ratio shown is the one available dependent upon model, GVM payload and engine/transmission combination. [000]The declared fuel/energy consumptions and CO_2-emissions for Stage 6c (N1) and Stage 6d-TEMP (M1) engines are measured according to the technical requirements and specifications of European Regulations (EC) 715/2007, (EC) 692/2008 and (EU) 2017/1151, as last amended. Fuel consumption and CO_2-emissions may be specified for a vehicle variant and not for a single vehicle. The applied standard test procedure enables a comparison between different vehicle types and different manufacturers. In addition to the fuel efficiency of a vehicle; driving behaviour as well as other non-technical factors are very important in determining a vehicle's fuel/energy consumption and CO_2-emissions. A guide on fuel economy and CO_2-emissions which contain data for all new passenger carrying vehicle models is available at any point of sale free of charge or can be downloaded under http://carfueldata.dft.gov.uk

Get the most from your new Ford

We want to help you get the most from your new Ford. And to do that, you need to know how much it is designed to safely carry, both in terms of payload and load volume. Your Transit Centre can provide professional advice on important specification aspects, and help to find the right vehicle for your budget and business needs.

The Ford Ranger is designed to carry cargo – and lots of it.

Choosing a new vehicle is an important decision with lots of factors to be considered. While some aspects, like selecting the most appropriate derivative, identifying the intended primary use and determining load box size are relatively simple, others, such as calculating payload are more complex.

Payload capacity

To calculate payload, you need to know two things: the vehicle's gross vehicle mass (GVM) and its kerb mass.

GVM is the maximum permissible weight of the vehicle when loaded and ready to go – that includes the weight of the vehicle itself, ancillaries, driver and crew (assuming the industry standard weight of 75 kg/person), fluids, fuel tank 90% full (1 litre of diesel = approximately 0.85 kg), optional and aftermarket equipment, and cargo.

Kerb mass is the weight of a standard-specification XL Series vehicle, including fluids and fuel tank 90% full, but without the driver, crew or cargo.

Payload is the difference between the two.

Gross vehicle mass minus **kerb mass** = **payload**

So to help you choose the right vehicle for your needs, here are some more detailed explanations about the factors that can influence a vehicle's payload. These include, but are not limited to:

Driver and crew

We calculate the weight of the driver and crew based on the industry-standard weight of 75 kg/person. Remember that the driver and crew are not included in the kerb mass figure, so when a driver or crew boards the vehicle, its payload will be reduced accordingly.

Factory-fitted options

Most factory-fitted options will affect a vehicle's payload. For example, air conditioning can add approximately 18 kg to a vehicle's weight, and therefore reduce its payload accordingly.

Your Transit Centre will be able to tell you what features can add or reduce your vehicle's kerb mass and by how much.

Series

All kerb masses quoted in this brochure are for standard-specification XL Series models, unless otherwise stated. Higher Series models will generally weigh more than lower Series due to the increased level of features and equipment.

Manufacturing tolerances

Variations in manufacturing and production processes mean that no two vehicles are likely to weigh exactly the same.

Accessories and aftermarket conversions

It is important to think carefully about what you add to your vehicle after you take delivery. Any accessories fitted or aftermarket conversions to the vehicle may adversely affect its payload. Please speak to your Transit Centre for more information and advice.

If payload is critical to your business, or if you plan to carry cargo at, or close to, the vehicle's maximum capacity, your Transit Centre can help. Using their specialist expertise and knowledge, they can advise you on the exact specification of vehicle required to meet your individual business needs.

Configure your Pick Up to suit your job

Ford Commercial Vehicles are available with a wide range of standard and optional features. Your Transit Centre can help you ensure that you specify the right vehicle features for your specific business needs, including technical items to aid aftermarket fitment of specialist equipment or conversion.

Note Technical information for vehicle converters can be found online via the Body and Equipment Mounting Manual @etis.ford.com go to >information >>vehicle conversions.

[a]Payload Gross = Gross vehicle mass, less kerbweight. GVM = Gross vehicle mass. The total permissible all-up weight of a rigid vehicle – i.e. with body, payload, ancillaries, fuel, oil, water, driver and crew. *Kerbweight = The weight of the vehicle and all standard equipment including 90% fuel and liquids, but without the payload, driver or any passengers. *All kerb masses quoted in this brochure are subject to manufacturing tolerances and are for standard models with minimum equipment. XLT, Limited and Wildtrak models will have greater kerb masses and, therefore, lower payloads due to the increased amount of standard equipment. Any additional options specified on the vehicle will reduce the payload accordingly. Note: All data in the this table is dependent on the actual specification of the vehicle and the market in which that vehicle is available. For customers intending to load the vehicle close to maximum payload, we suggest you also add a margin for error of 5% of Kerb Mass to the Kerb Mass figure before calculation, to reduce risk of overloading. Contact your local Ford Dealer for more information. ***Note : To allow a canopy to be fit, the Sport Bar and rails are removed, effectively raising Max Gross Payload to 1045kg and allowing the canopy fitment.**

test drive

Visit your Ford Commercial Vehicle Dealer and test drive the Ford Ranger for yourself. Find your local Ford Commercial Vehicle Dealer: www.ford.co.uk

build

Build and price your new Ford Ranger to your exact specification and see how it looks at www.ford.co.uk

contact

Ford Credit Account Services : 0345 712 5490

Ford Lease Customer Services : 0344 600 1405

Calls to 0344 and 0345 numbers are charged at the same rate as a standard 01 or 02 geographic number, even when calling from a mobile.

own

When you drive away in your new vehicle, we're with you all the way. Ford has a large authorised service network to help you keep your vehicle in the best condition. And should your new Ford ever require accident repair, a Ford Accident Repair Centre is the best place to get your vehicle back to its pre-accident condition and on the road as quickly as possible.

finance

When it comes to financing your Ford commercial vehicle, our size and expertise means we're well placed to provide you with a wide range of finance plans.

Ford Credit* provides a range of finance plans for your commercial vehicle customers interested in vehicle ownership.

Ford Lease^ specialises in contract hire and leasing and provides an alternative range of finance plans which can be tailored to suit your business.

For more information about our finance products visit ford.co.uk

*Finance subject to status. Guarantees may be required. Freepost Ford Credit.
Ford Credit is a trading style of FCE Bank plc. Which is authorised by the Prudential Regulation Authority and regulated by the Financial Conduct Authority and the Prudential Regulation Authority under firm reference number 204469.
^Ford Lease is provided by ALD Automotive Limited acting as Ford Lease BS16 7LB. ALD is registered in England No. 987418. ALD is authorised and regulated by the Financial Conduct Authority.

FordPass i is a new platform that will empower you to rethink the way you move. Finds parking locations nearby, contains vehicle and finance details, dealer information and a host of useful guides.

Live Traffic access is free for the first 2 years following the purchase of a new Ford featuring SYNC 3 with navigation; thereafter there is an annual licence fee.

Illustrations, descriptions and specifications. This catalogue was correct at the time of going to print. However, Ford policy is one of continuous product development. The right is reserved to change specifications, colours and recommended prices of the models and items illustrated and described in this publication at any time. For the latest details always consult your Ford Dealer. **Optional equipment.** Throughout this publication, wherever a feature is described as being an 'Option' or 'Option Fitment/Pack' etc, you should assume that it will be at extra cost to the base vehicle, unless specifically stated to the contrary. All models and colour combinations are subject to availability. **Note.** Some images portrayed are of a pre-production model and/or are computer generated, therefore, the design/features on the final version of the vehicle may differ in various respects. In addition, some of the features shown on the vehicles may be optional. **Note.** This brochure contains both original Ford accessories as well as a range of products from our suppliers. Fitment of accessories may have an impact on your vehicle's fuel consumption. ✚ The identified accessories are carefully selected third party supplier branded accessories which do not come with a Ford warranty but are covered by the third party supplier's own warranty, the details of which can be obtained from your Ford Dealer. **Note.** The Bluetooth® word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Ford Motor Company is under licence. The iPod word mark and logos are the property of Apple Inc. Other trademarks and trade names are those of their respective owners. **Note.** Some driver assistance features and safety features described in this brochure are designed to function using sensors, whose performance may be affected under certain weather or environmental conditions.

The Government fuel figures do not express or imply any guarantee of the fuel consumption of any particular vehicle. The vehicles themselves have not been tested and there are inevitably differences between individual vehicles of the same model. In addition, a vehicle may incorporate particular modifications. Furthermore, the driver's style and road and traffic conditions, as well as the extent to which the vehicle has been driven and the standard of maintenance, will affect its fuel consumption. **Insurance groups** are only as recommended by the Association of British Insurers. You should always consult your insurance adviser for confirmation.
